It marked the 19th annual tournament, during which time Canada has won thirteen times and the United States six times. Canada won last year.

The United States team won in five of the eight rinks today, 21 ends being played at all the rinks by agreement. The closest match was that between the St. Andrews of Montreal and the Jersey City Curling club, which was not decided until the last stone was shipped. Measurements of the three nearest stones gave the match to the Americans by one point, the score being 18 to 17. State Senator Edwards of New York captured the Jersey City team.

FINANCIAL AND COMMERCIAL.

MARKET IS CAUTIOUS.
No Present Desire to Enter Upon Fresh Speculative Ventures.

New York, Feb. 20.—Increasing reluctance to enter upon fresh speculative ventures at the present uncertain period was indicated by the small volume of trading on the stock exchange. Decisions of the supreme court and the interstate commerce commission in the matter of increased freight rates, long looked to as belonging to the more or less distant future, are now among the possibilities of any week. News of the Washington of the increased likelihood of an extra session of congress added to Wall street's nervous apprehensions. Prices declined swiftly in the first hour of trading, owing less to short selling than to a disposition of holders on the long side to retire from the field. St. Paul, Reading and Consolidated Gas broke a point at the outset, and most of the other issues recorded by substantial fractions, while the selling movement was under way. Lower prices evoked no demand and the market followed a period of dullness, until it became apparent that none of the looked for decisions would be announced before the close of the market, when buying was begun in a modest way. Prices recovered slowly until United States Steel, Union Pacific, Lehigh Valley and Missouri Pacific had gained a point, ending two points and the list as a whole had reached or nearly reached bettered Saturday's last figures. Toward the close of the day heavy buying of the Gould stocks and bonds led to the bidding up of other stocks to the highest level of the session. Woburn preferred sold at 1 1/4 above Saturday's 21-4, and the Denver and Rio Grande returned 3/8 and Missouri Pacific advanced substantially. Union Pacific, Reading, Missouri Pacific and Lehigh Valley rose a point or more, and the closing was firm within a fraction of the best level of the day.

International Harvester was the central figure in the morning trade. It rose more than three points while the market was waiting word of the directors' decision on the proposed merger. It had it that the dividend rate would be increased from 4 to 6 per cent. When it became known that the dividend had been declared at the rate of 5 per cent, yearly the stock dropped perceptibly, ending more than the amount of its earlier gain. United States Rubber was active and strong, despite the advance in the price of crude rubber.

otation of new securities, including \$5,000,000 4 per cent. bonds of the Chicago, Burlington and Quincy and \$5,000,000 5 per cent. bonds of the consolidated Coal company, was announced today. In spite of the huge aggregate of securities, however, the first of the year, money is increasingly easy at this center. Loans were placed today for six months on all industrial securities at 3 1/2 per cent. This is the lowest quotation for this particular class of accommodation in many months, and gives reasonable assurance of a continuation of easy conditions for an indefinite period.

The bond market was relatively more active than the stock market. Total sales, par value, \$4,618,000. United States bonds were unchanged on call.
